AppsMarche Doctor App User Manual with new features	AppsMarche (sales@appsmarche.com)	1.0	3-July-2017

1. AppsMarche Doctor App

AppsMarche Doctor App is a unique approach for the Doctors who wants to manage their staff, patients and their work in a tech friendly and innovative manner. The app contains various features in it which makes the work to be managed properly and efficiently. Through this app the doctors can manage all the data of their staff which includes the doctors, patients and chemist. The patients can fix the appointments by using the app and the doctor can see all the appointments through the app. All the patient reports and the treatment done is managed in the app. The patient need not to maintain a separate file. All the functionalities of app like sending notifications, managing the reports, adding patients, etc. are managed by Web Dashboard.

2. How to Get a Doctor APP

To get a doctor app, user has to sign up with us with below URL.

<http://www.appsmarche.com/doctor-app-appsmarche> and select option to Get APP.

By providing, few basic details, and making payment, user can register with us. Once payment is done, a confirmation email will be sent on registered email id which will contain the details on how to access web dashboard and credentials to access the same.

App will be uploaded on Play Store within 30-60 min duration after payment. We will send a confirmation email once it is uploaded on Play Store. Also App can be downloaded from Web Dashboard as well.

3. Web Dashboard Walkthrough

Access web dashboard with the URL shared on registered email id.

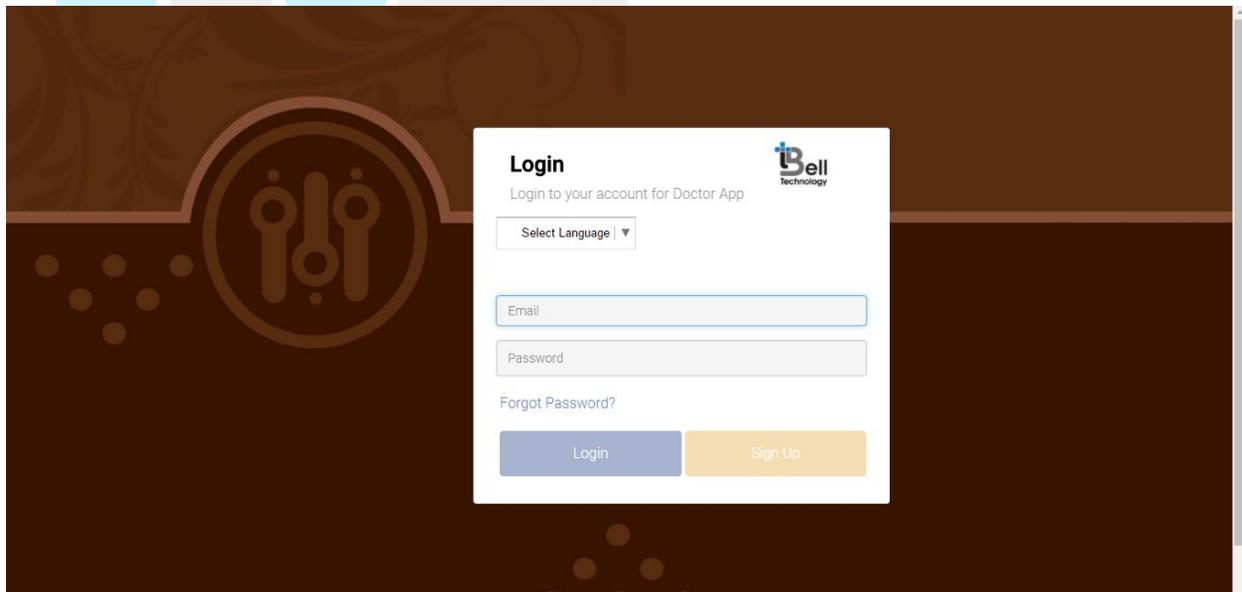

Figure 1 Login Screen

Admin will see below screen after login into web dashboard.

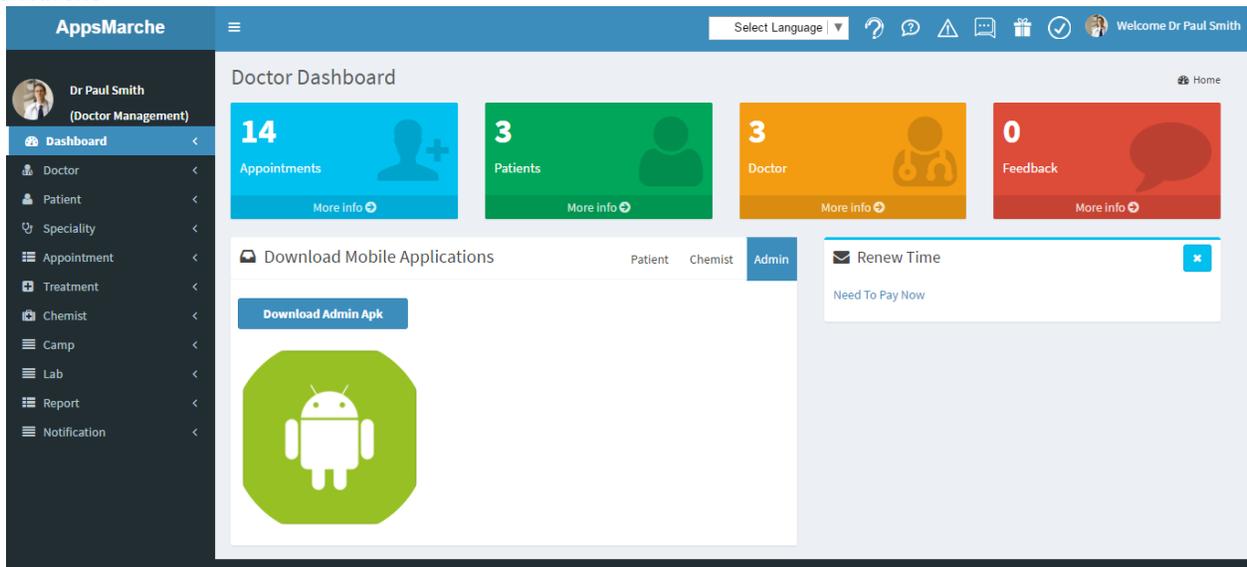

Figure 2 Admin Dashboard

Admin can change language of web dashboard by selected the required language from the drop down available on top right corner.

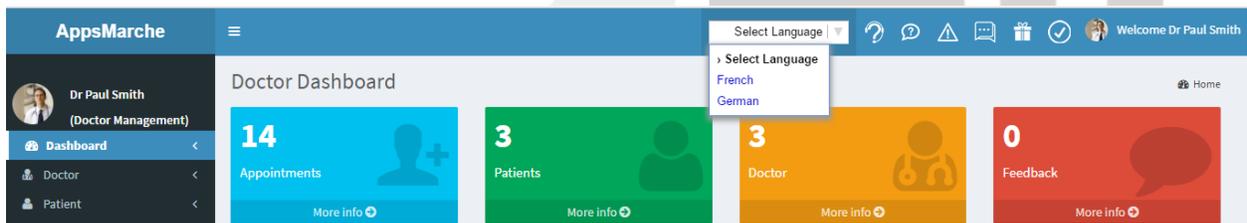

Figure 3 Change Language

Note: A new feature is added in the dashboard to keep track, maintain and store all the data for every entry in order to take backup or recovery in future. No data should be deleted rather it can be either activate or deactivate from admin’s end. Only activated details will be shown to user but both to admin. It is applicable for all the tabs such as Doctors, Patients, Specialty, Treatment, chemist, labs, camps, Appointments and so on.

To view all the doctors, Admin can select **Doctor** from the navigation menu on left

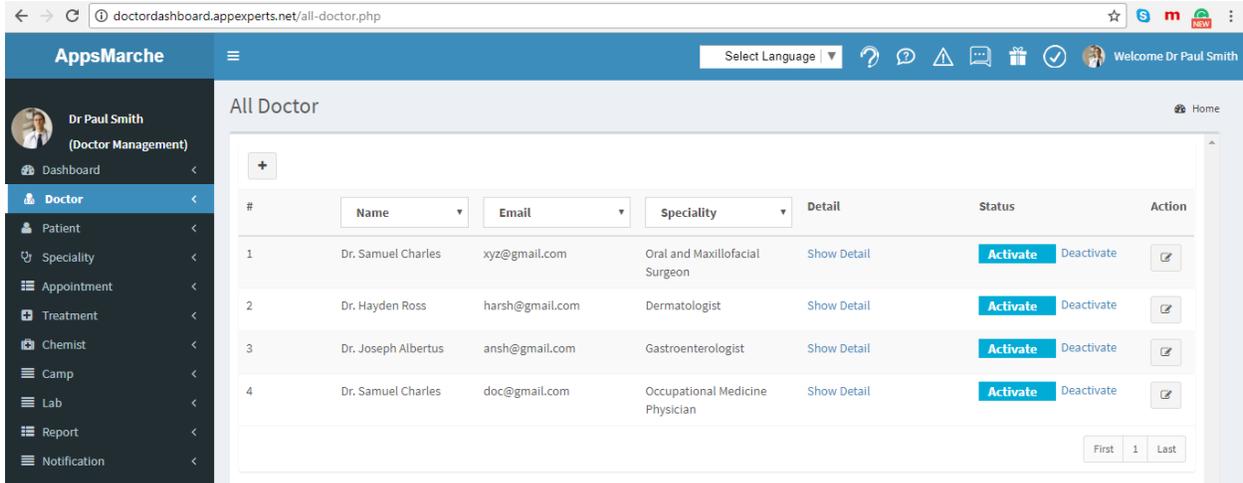

Figure 4 All Doctors

*The admin can sort the details of the doctors according to the name, email and speciality.

To view the details of the doctors, Admin can click on the **show detail** option.

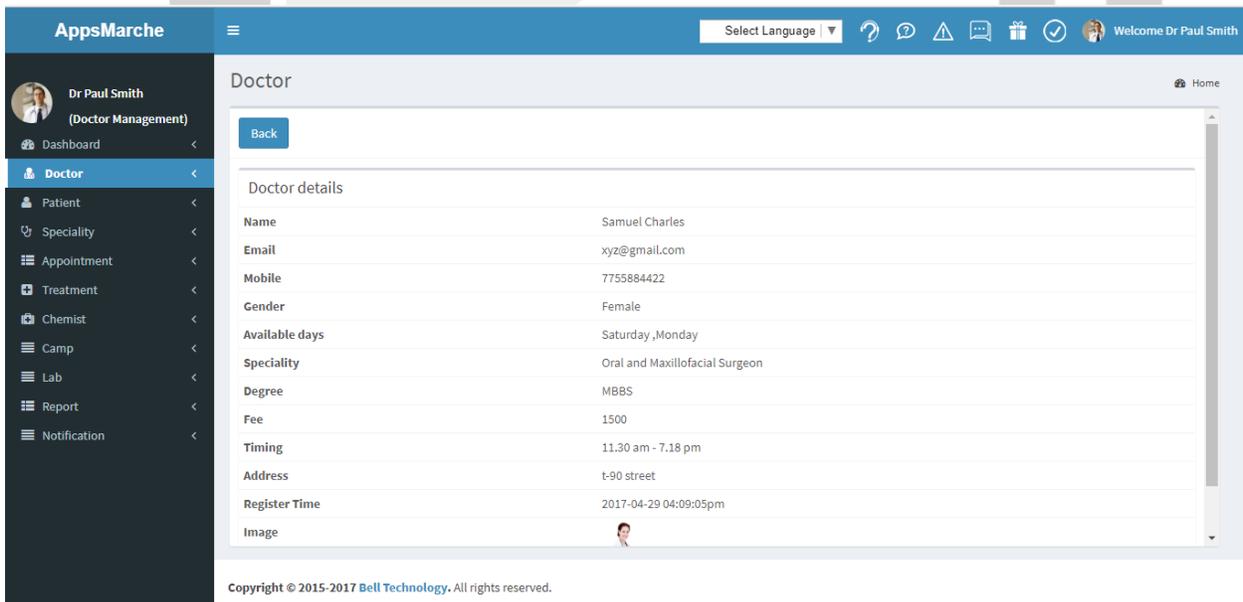

Figure 5 Details of the doctor

The Admin can update or edit the details of the saved doctors by clicking on the **edit icon** and then click on update button.

Patient Mobile App Login Screen.

The login screen features a teal background. At the top, there is a profile picture of a male doctor in a white coat with his arms crossed. Below the photo, the text reads "Dr. Dalton Joshua" and "Occupational Medicine Physician". The screen contains two input fields: "Email" and "Password". To the right of the password field is a link that says "Forgot Password?". Below these fields is a large, rounded "Sign In" button with a yellow-to-green gradient. At the bottom, there is a link that says "No account yet? Create one".
