AppsMarche Restaurant App User Manual with updated features	AppsMarche (sales@appsmarche.com)	1.0	1-July-2017

1. AppsMarche Restaurant-App

AppsMarche Restaurant App is a unique approach for the Restaurant business holders who want to manage their entire restaurant business in a tech friendly and innovative manner. The app contains various features in it which make the work to be managed properly and efficiently. Through this app, the Restaurant admin can manage all of their business information which includes the customers' information, delivery boy, customer orders, etc. The customers can make their order through the 'Restaurant-User App' and the restaurant admin can see all the customer order through the 'Restaurant-admin app' and 'Restaurant web Dashboard'. The Admin can also define the product category and products, promotional banners through their web dashboard and can view the feedback received by the customers.

2. How to Get a Restaurant APP

To get a Restaurant App, the user has to sign up with us with below URL.

<http://www.appsmarche.com/restaurant-app-appsmarche>, and select option to Get APP.

By providing, few basic details, and making payment, the user can register with us. Once payment is done, a confirmation email will be sent on registered email id which will contain the details on how to access web dashboard and credentials to access the same.

The app will be uploaded on Play Store within 30-60 min duration after payment. We will send a confirmation email once it is uploaded on Play Store. Also, App can be downloaded from Web Dashboard as well.

3. Web Dashboard Walkthrough

Access web dashboard with the URL shared on registered email id.

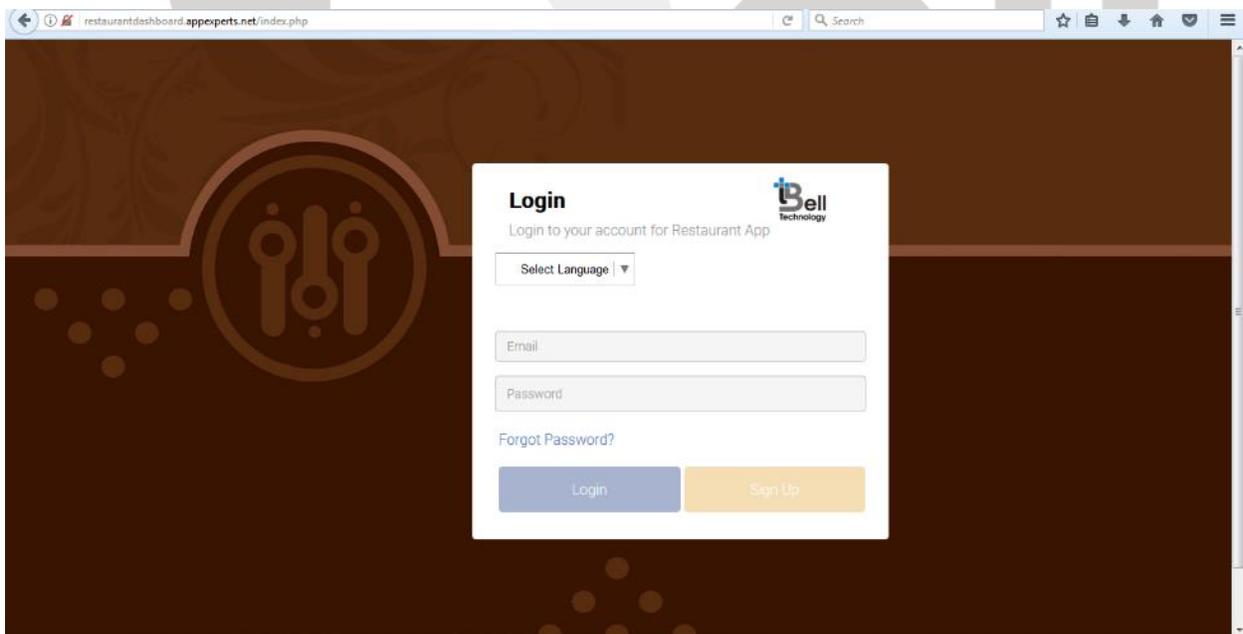

Figure 1 Login Screen

Admin will see the below screen after successful login into web dashboard.

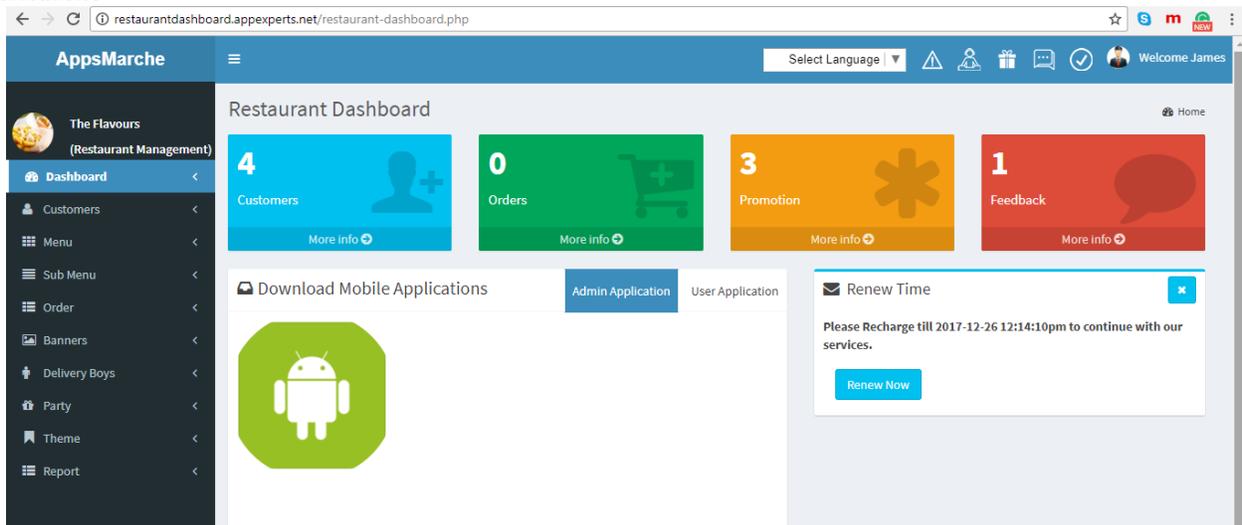

Figure 2 Admin Dashboard

Admin can change language of web dashboard by selecting the required language from the drop down available on top right corner and choose from the available language.

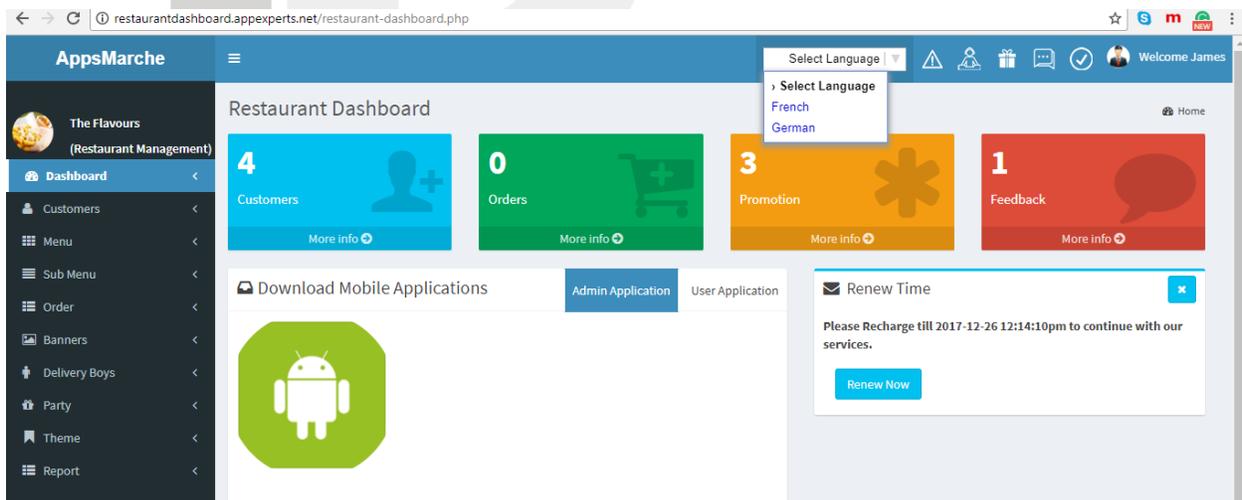

Figure 3 Change Language

Note: A new feature is added in the dashboard to keep track, maintain and store all the data for every entry in order to take backup or recovery in future. No data should be deleted rather it can be either activate or deactivate from admin’s end. Only activated details will be shown to the user but both to admin. It is applicable for all the tabs such as customers, products, party, themes, and menus and so on.

To view all the customers, Admin can select **Customers** from the navigation menu on left

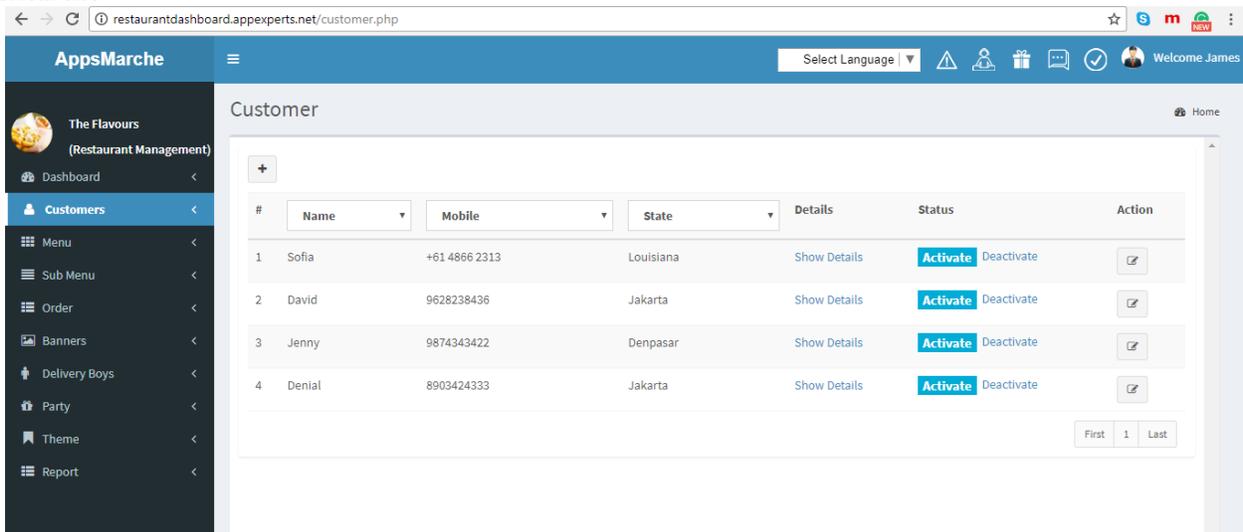

Figure 4 All Customers

Note: The admin can alter the customer's detail from here.

To view the customers' detail, Admin can click on the **show detail** option.

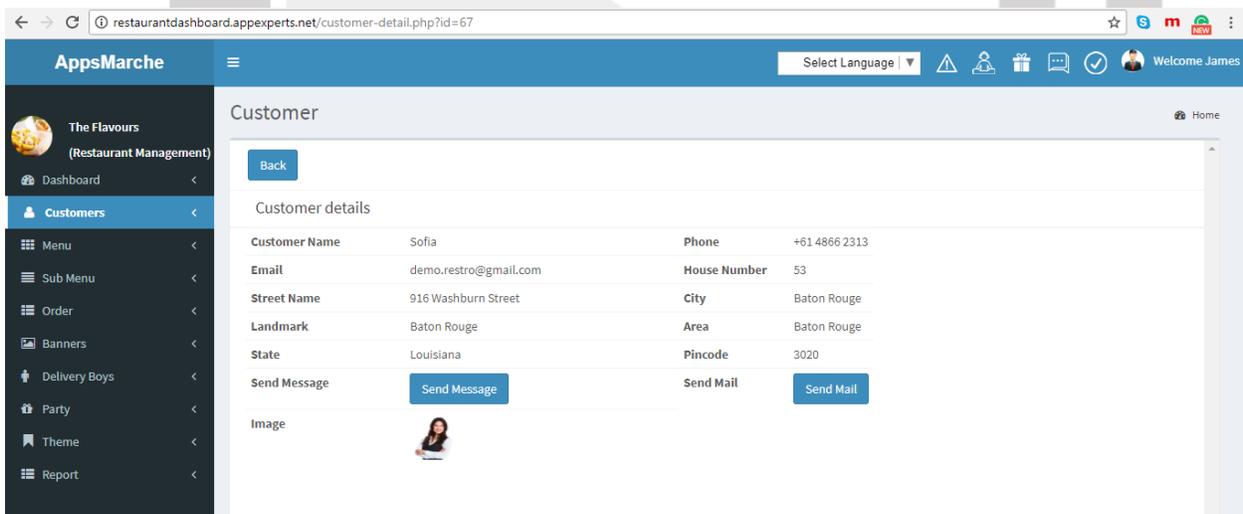

Figure 5 Customer Detail

Note: The admin can send the message or email to the customer from here on their registered mobile number and email address by just clicking on the 'Send Message' and Send Mail " button available on the above or customer detail page.

Admin can update or edit the details of the saved customer by clicking on the **edit icon**.

Figure 6 Edit detail screen

To add new Customer, Admin has to use **+** button given on all customer screens

Figure 7 Adding new Customer

To view all the menu, Admin can select **Menu** from the navigation menu on left

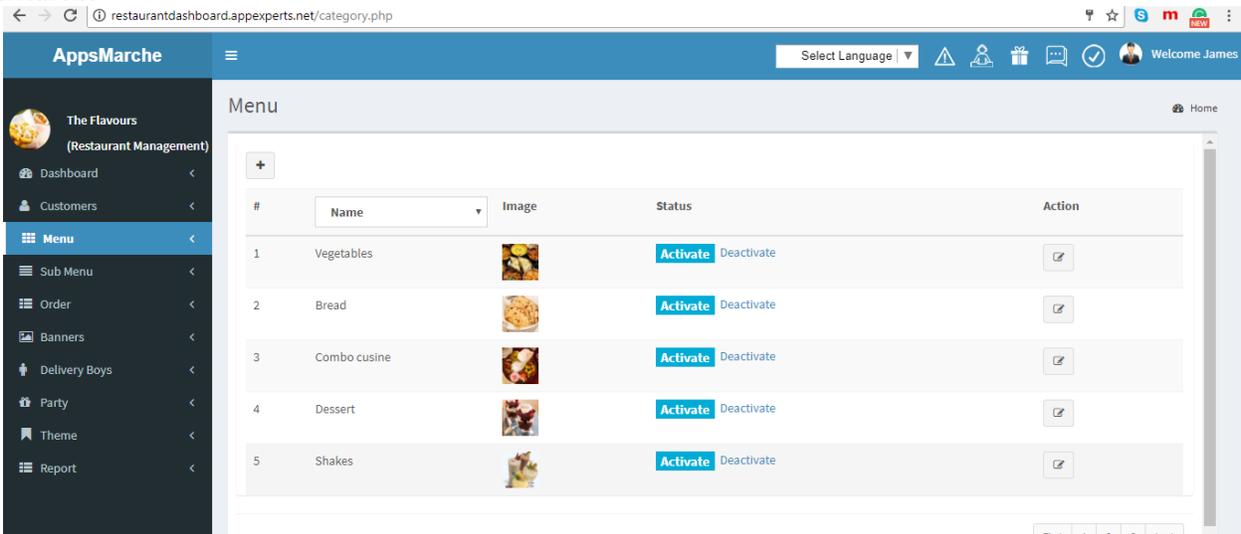

Figure 8menu

The Admin can edit and update the menu detail by just clicking on the edit icon from the above screen.

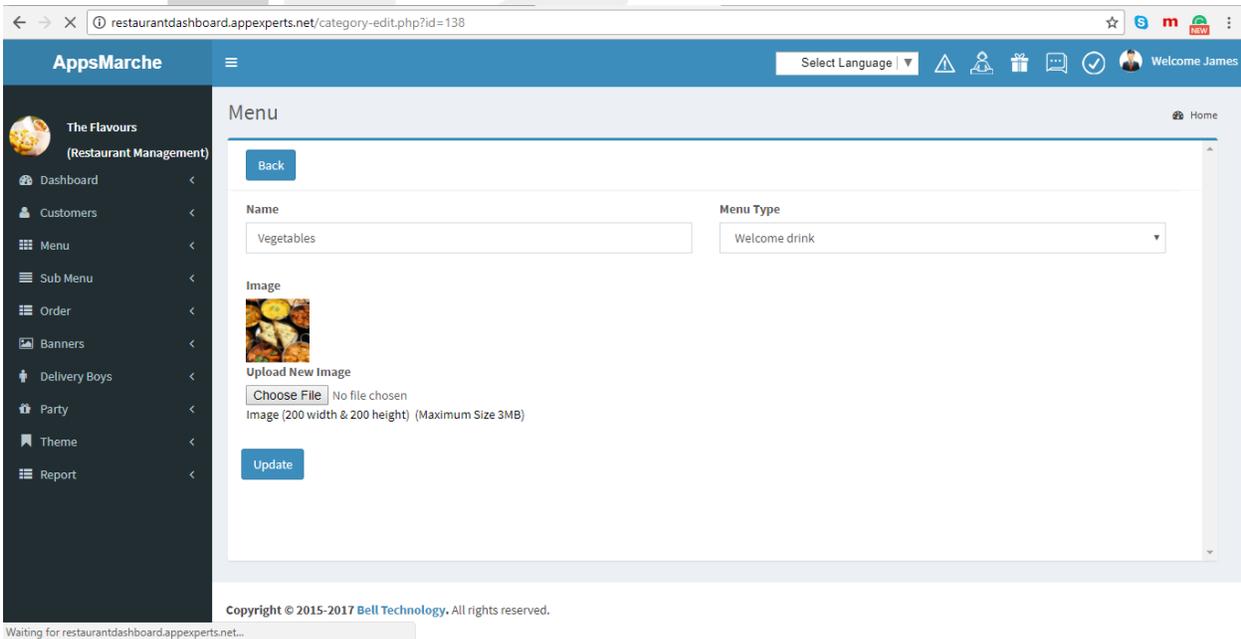

Figure 9Menu_edit

To add new menu, Admin has to select + button from the all Category screen

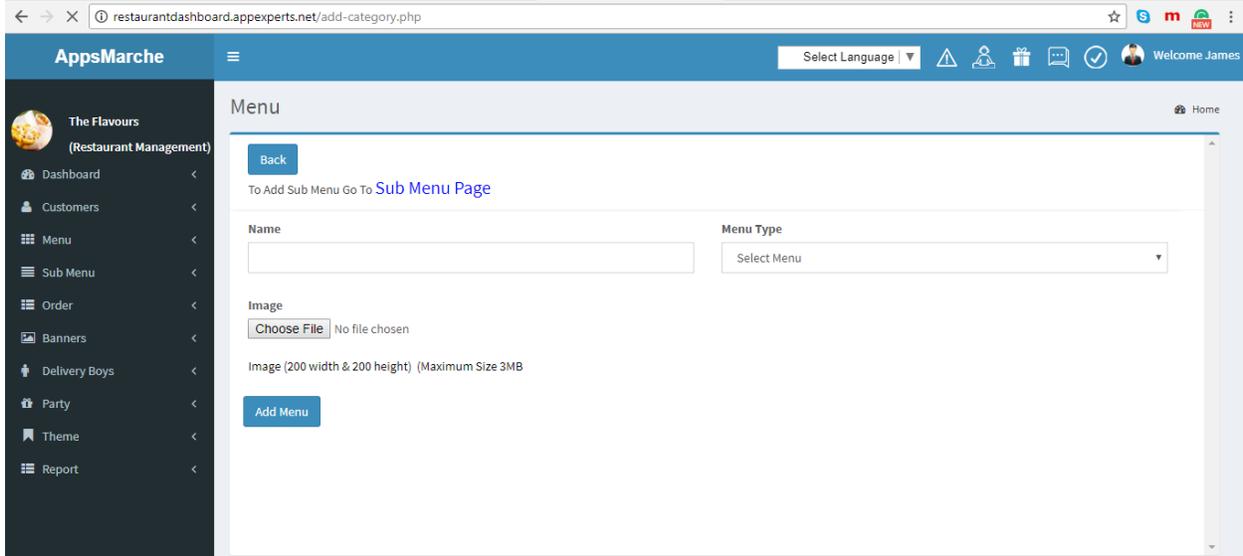

Figure 10 Adding new menu

The admin can see the sub menu of all the menus item by clicking on the **Sub Menu** in the left navigation and then selecting the menu for the submenu.

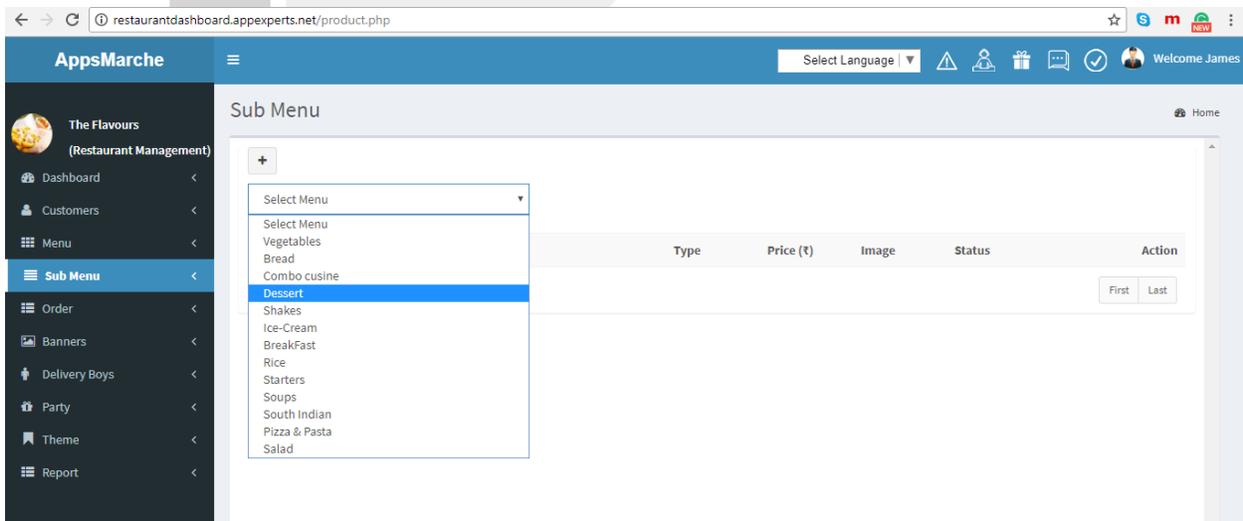

Figure 11 sub menu

Once one of the menus is selected for example here 'desserts' below screen will appear.

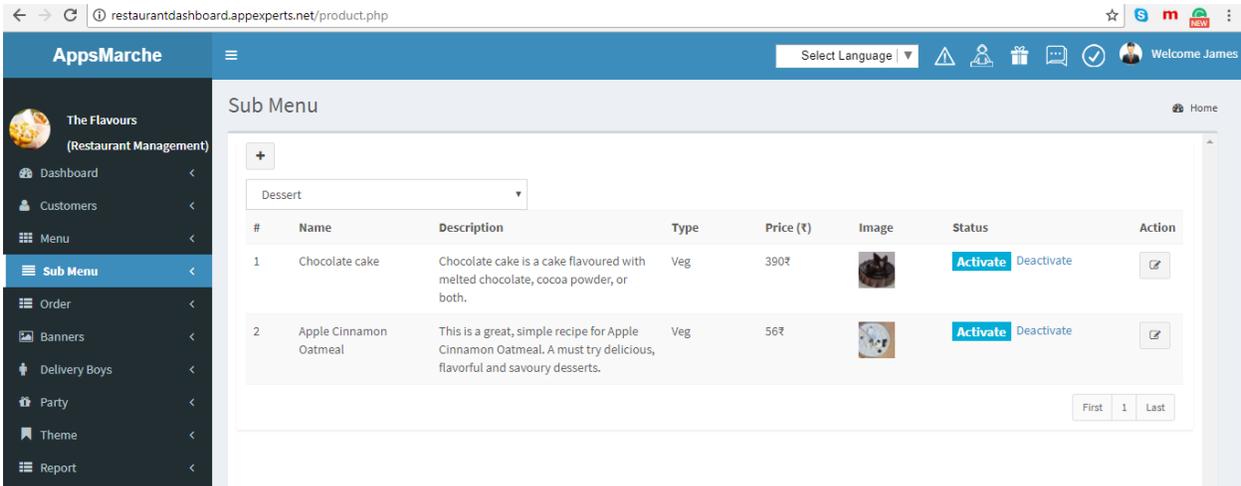

Figure 12 sub menu details

The submenu details can edit and update through edit link under Action tab.

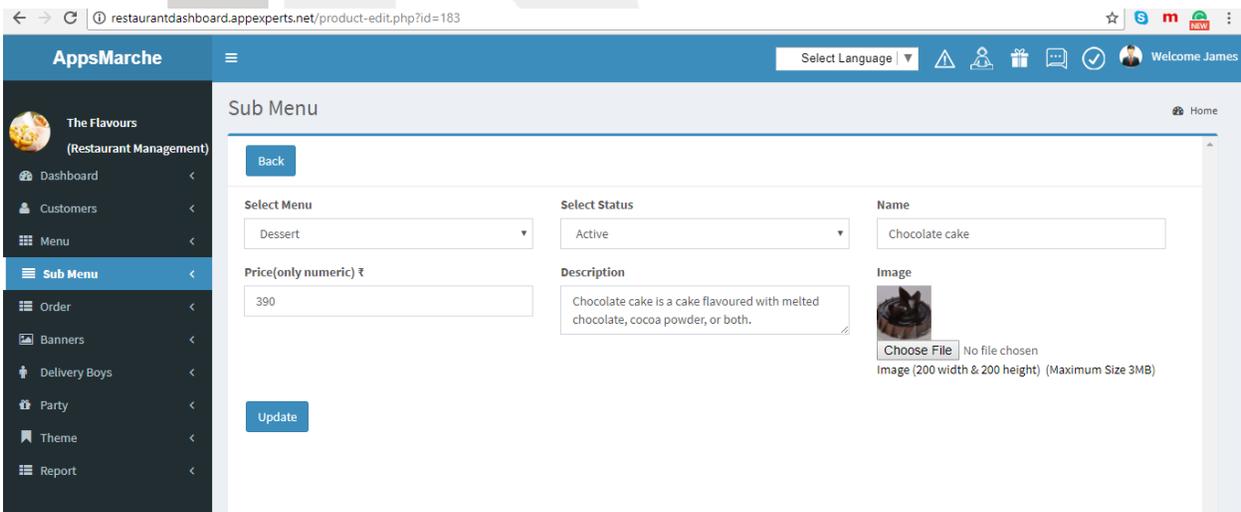

Figure 13 Edit sub-menu details

The admin can add the new sub menu item under any menu by clicking on the + icon given there

Technology

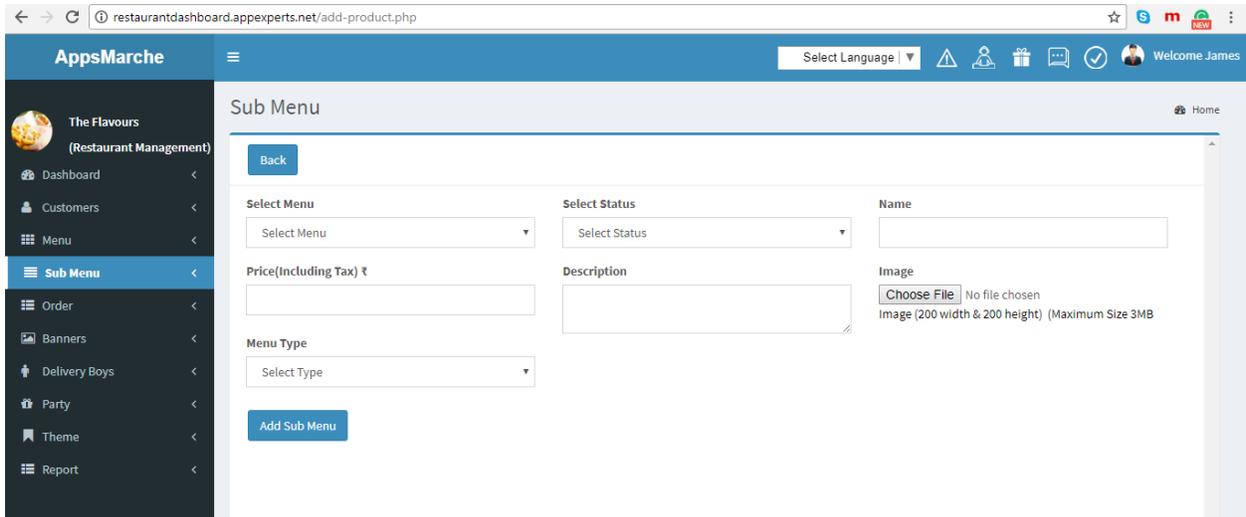

Figure 14 Add submenu

To view the Pending, Confirmed and Completed order of the customers the admin has to click on the Dropdown button **Order** under the left menu.

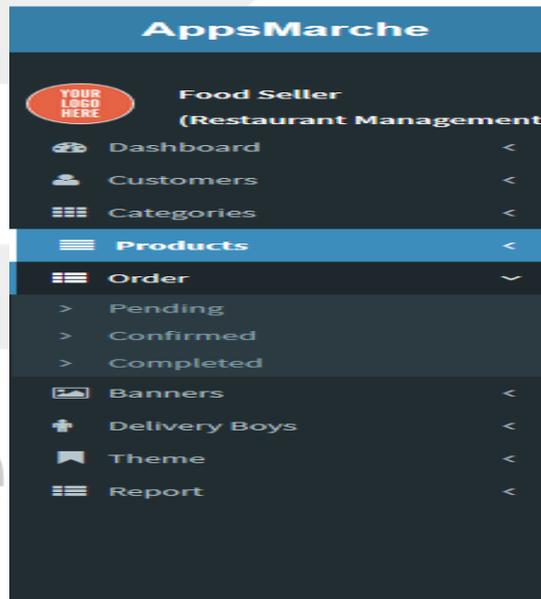

Figure 15 select order type

The Admin has to click on the **Pending** under the left menu to see the new or pending order made by the customer.

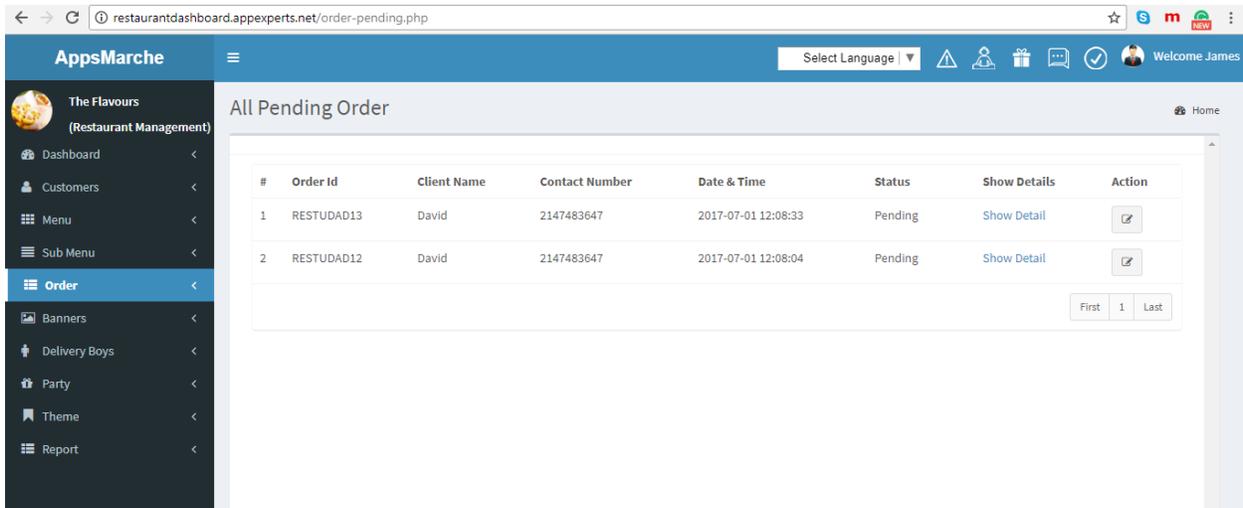

Figure 16 pending order list

The Admin can see the complete information of the pending order by clicking on the **Show Detail** link given there.

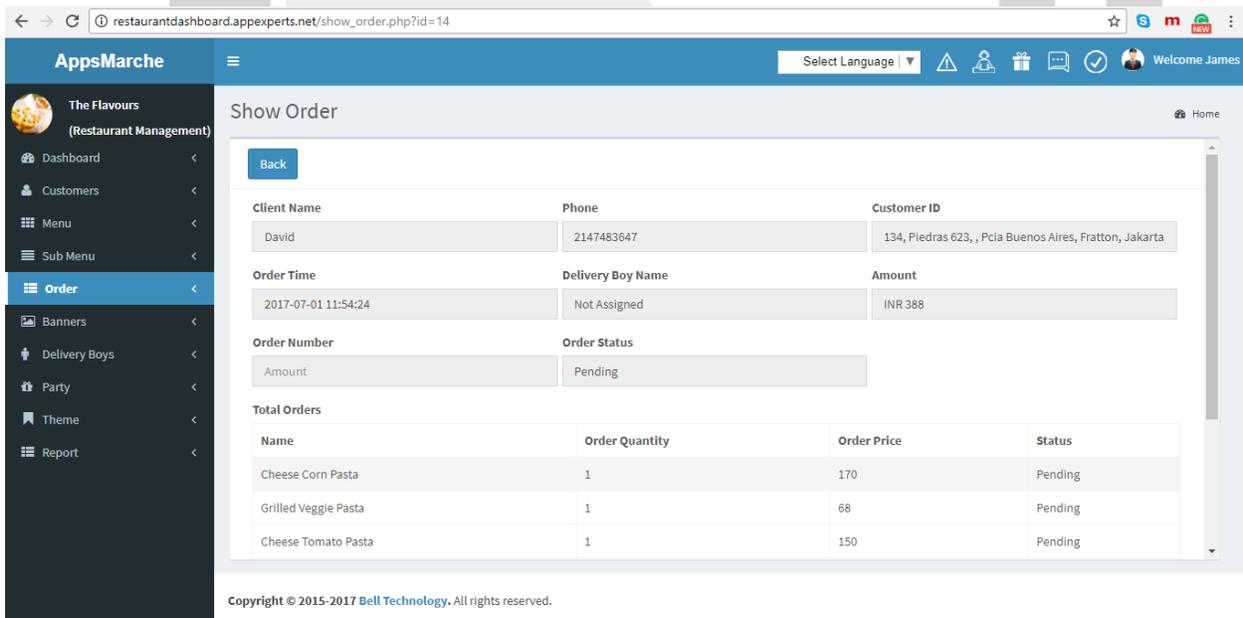

Figure 17 show pending order detail

The admin can also edit or update the order product quantity by clicking on the **Edit icon**.

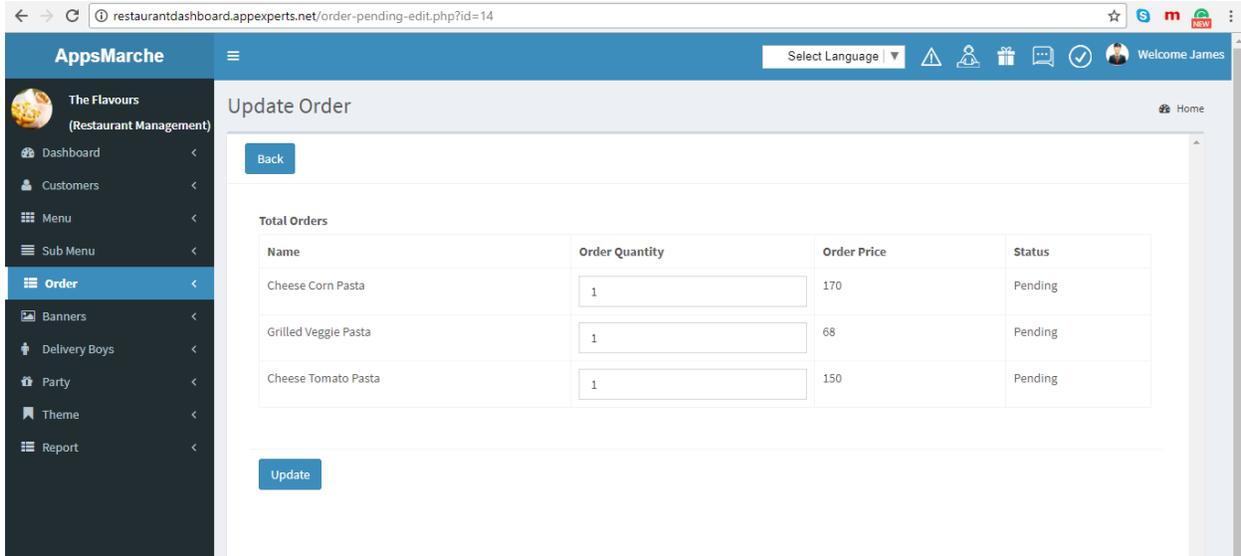

Figure 18 edit/update order quantity

To confirm the customer order the admin has to select the **Confirmed** from the drop-down menu under the left menu.

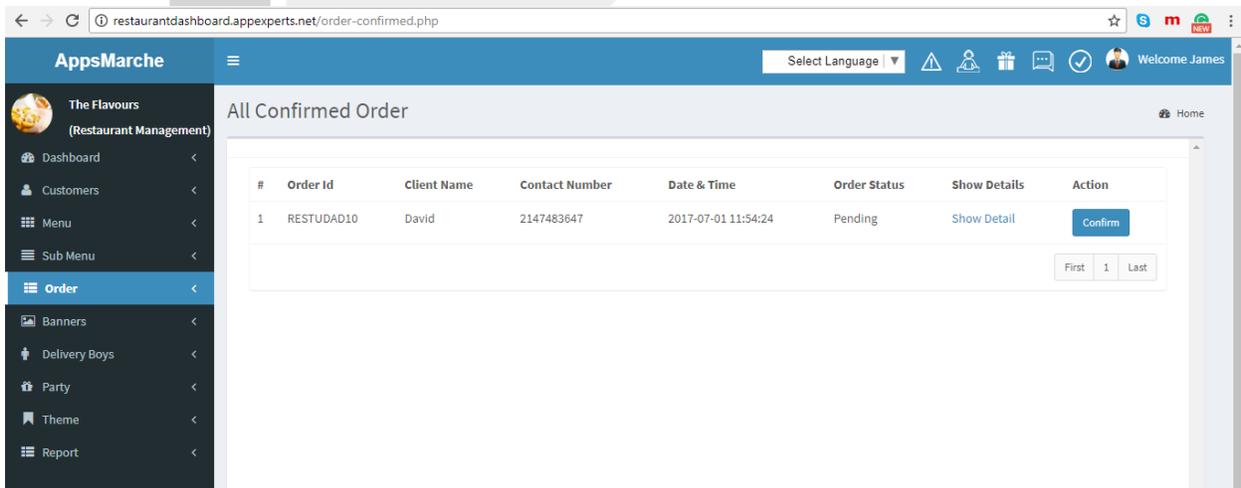

Figure 19 to confirm the order

The admin can see the details of the order by clicking on the **show detail** link given there.
