1. AppsMarche Wedding App

AppsMarche Wedding App is a unique approach for the customers who wants to plan wedding either of their own or of their related people in a tech friendly and innovative manner. AppsMarche wedding app enable end users to create their mobile app in an easy and cost effective manner. User can create events, image gallery of events, notification to all registered members or only selected members. Categorization of Bride and Groom is incorporated in app. All the functionalities of app like sending notifications, adding users etc. are managed by Web Dashboard.

2. How to Get a Wedding APP

To get a wedding app, user has to sign up with us with below URL.

<http://www.appsmarche.com/wedding-app-appsmarche> and select option to Get APP.

By providing, few basic details, and making payment, user can register with us. Once payment is done, a confirmation email will be sent on registered email id which will contain the details on how to access web dashboard and credentials to access the same.

App will be uploaded on Play Store within 30-60 min duration after payment. We will send a confirmation email once it is uploaded on Play Store. Also App can be downloaded from Web Dashboard as well.

3. Web Dashboard Walkthrough

Access web dashboard with the URL shared on registered email id.

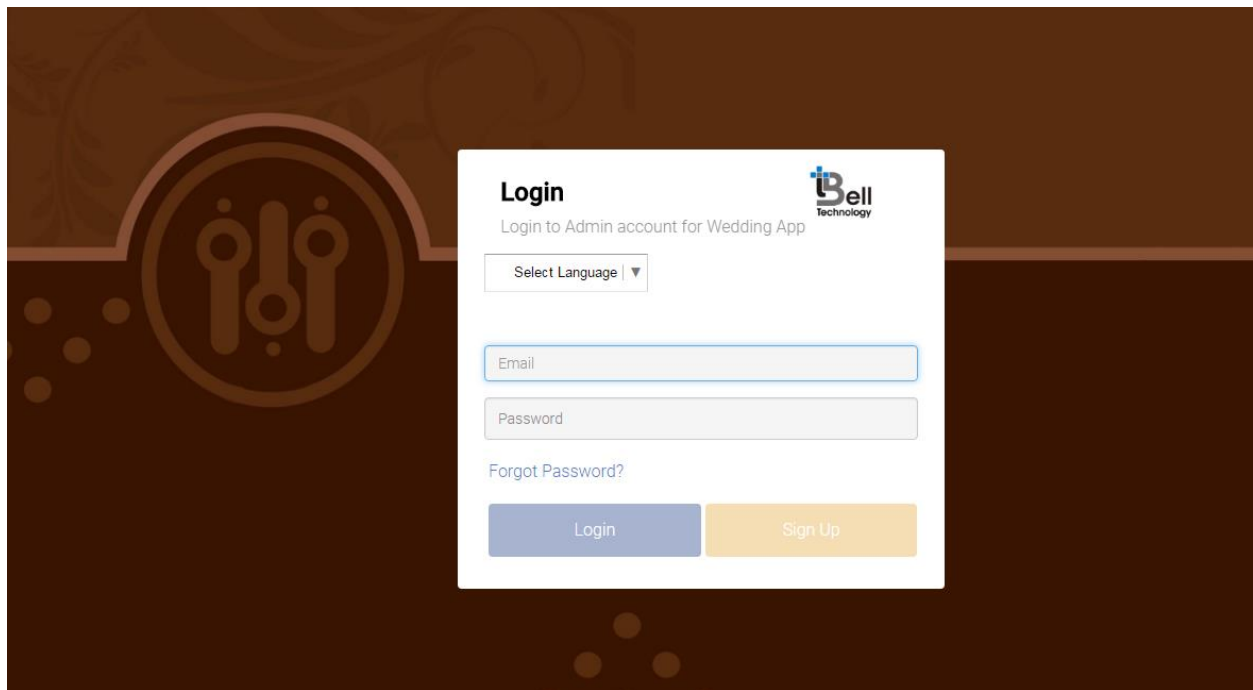

Figure 1 Login Screen
