1. AppsMarche Automobile Reseller App

AppsMarche AutomobileReseller App is an inventory approach for the Automobile resellers who want to manage their business and their products in a tech friendly and innovative manner. The app contains various features in it which make the work to be managed properly and efficiently. Through this app, the Automobile reseller vendors can manage the data of their vehicles which includes displaying images, reselling vehicles such as car, bike, truck etc and filter the results as per customer needs. The admin can monitor its customers, product orders, banners, vehicles and any feedback received from users.

All the user details and their booked vehicles will be managed by the app. All the functionalities of an app like sending notifications, uploading images, managing the orders, adding vehicles etc. are managed by Web Dashboard.

2. How to Get anAutomobileReseller APP

To get an Automobile app, the user has to sign up with us with below URL.

<http://www.appsmarche.com/automobile-app-appsmarche>, and select option to Get APP.

By providing, few basic details, and making payment, user can register with us. Once payment is done, a confirmation email will be sent on registered email id which will contain the details on how to access web dashboard and credentials to access the same.

The app will be uploaded on Play Store within 30-60 min duration after payment. We will send a confirmation email once it is uploaded on Play Store. Also, App can be downloaded from Web Dashboard as well.

3. Web Dashboard Walkthrough
